Introduction

The publishing house presents you a new oracle «Magic of Hearts», which is dedicated to the theme of love and relationships. The deck will help you understand issues such as: “why are people still living together, what makes them different, what everyone wants from a relationship, what they are afraid of, etc.» But, despite this, you can easily view questions about work and business development on the cards.

All map values are shown in both keys, and when you read them, you will understand how close these topics are in meaning. Family partnerships, as well as work partnerships, often have the same problems. The cards are made in a fairytale style, which in no way makes them less «talkative», and even more so, does

not interfere with the pre-fairy-tale work or understanding of the cards. The deck will be yours immerse yourself in the pleasant atmosphere of a fairy tale, giving pleasure.

Also, I would like to draw your attention to the fact that all the values given in the book, my personal ones, they can be played differently for you. When I created the deck, I told my own story, with my own associations. But when the deck goes out into the world, it begins to live its own life. Here you need to gain experience and connect with the deck, and watch how it communicates with you. You will have your own personal history with her . For example, I did not provide for inverted values, but if you are used to working with them, and you feel that you want to use them in your work, as opposed to the main value, then this will be exactly

your way of communicating with maps. In any case, as soon as this deck appears in your life, first review it each card, what it means exactly for you, what emotions you feel from it. Only then do you start working with them, watching as the deck tells you its story.

I'll say a few words about magic work. I will not go into details, there is quite a lot of information on this topic now, each master has his own methods and his own practices. The methods are extensive, ranging from correctly closing the deck to attract certain events, to directly building out events in your life. More detailed information can be found on the Internet or in books by other authors.
